Description:

“BUILD IT BETTER 2.0” is a web development workshop. This workshop will give the basic idea about web development. We are going to cover HTML, CSS (basics) and PHP. Workshop will be for 2 days. On the first day we will teach HTML and CSS basics and introduction of backend. On the next day we have planned to teach PHP and we will show a demonstration of backend connectivity i.e complete live website. At the end of the workshop we have planned to take a small competition where we will give them a topic to build a website. We will tell them to send the screenshot and coding files via mail. After judging all the websites, we will declare a winner based on the task they have done.

Minimum requirements to attend the workshop:

- Laptop (i3 processor with 4GB RAM)
- Update your browser to the latest version (Chrome, Firefox, Brave)

Note:- Details of software installation will be provided after registration.
